Grant Thornton

A guide to local authority accounts.

This guide is designed to help members of audit committees discharge their responsibilities for the financial statements. It aims to help them understand and challenge the accounts, supporting notes and other statements.

Local authority audit committee members are not expected to be financial experts, but they are responsible for approving and issuing the authority's financial statements. They also play a key role in ensuring accountability and value for money are demonstrated to the public.

However, local authority financial statements are complex and can be difficult to understand: they must comply with CIPFA's Local Authority Code of Practice, which is based on International Financial Reporting Standards (IFRS), and also the requirements of accounting and financing regulations of central government. IFRS provides a comprehensive framework (over 3,000 pages of mandatory requirements) for the production of financial statements in the public and private sector. This framework is continually being refined.

We have prepared this guide for members to use as part of their review of the financial statements. It explains the key features of the primary statements and notes that make up a set of financial statements. It also includes key challenge questions to help members assess whether the financial statements show a true and fair view of their authority's financial performance and financial position.

Challenge questions

Has your Head of Finance made the Audit Committee aware of the guide?

Is training planned to help the Audit Committee understand the statement of accounts?
