

Hearing Monday

Dear Andrew

unfortunately I cannot attend the hearing on Monday due to commitments at Glastonbury Festival. I have read the information from Leslie reference additional Security and these are my thoughts , having worked a great deal of these events and knowing the crowd and the type of event I feel that we don't need an additional member of staff on each stage , reference the bar I agree that staff are required but it has been pointed out to me that the bar are supplying there own SIA and I have requested there details so they can be incorporated into the overall security plan. reference an additional roaming team during live hours this would be useful but I don't feel its essential however I would like to complete a site visit perhaps with the police so we can discuss this and I can make an informed assessment on any additional security .

kind regards
