Managing Development Policies

Reasons for selecting development management policy alternatives

- 4.149 The Local Plan Part 3: Development Management Policies (LP3) formed the latest set of adopted development management policies and the baseline position for the Local Plan Review. The Scoping Report consultation recognised that these policies would be newly adopted as the Local Plan Review progressed and that only minor adjustments would be required to amend policies in response to updates to national policy or guidance and any lessons learnt through implementation. This approach was widely supported through consultation.
- 4.150 The Options Consultation took forward this approach but sought to predict where changes would be required. The most notable changes anticipated would be from the Department for Communities and Local Government (DCLG) consultation on the Housing Standards Review which could impact on a range of policies including; AL/IN/6 Carbon Footprint Reduction (Merton Rule), DM2 High Quality Design (Building for Life), DM3 Sustainable Design (Code for Sustainable Homes), DM14 Design of Housing (Lifetime Homes) and DM15 Dwelling Sizes. Policy DM5 Renewable and Low Carbon Energy would need to be revised to reflect the new Government guidance in July 2013. Amendments were also proposed for DM9 to be replaced by a new Rural Exception sites policy and AL/DE/7 to reflect planning policy for traveller sites. The NPPF introduces the new designation of Local Green Spaces which should be reflected in policy. Self-build or custom build housing was also expected to warrant a new policy. Minor changes to DM16 Town Centre development and DM18 Development outside town centres would be needed to reflect Bampton's proposed change in status from a town to a village.
- 4.151 Proposed changes in the options consultation alongside other consistency issues have been addressed in the Local Plan Review. The presumption in favour of sustainable development has been deleted as it is no longer required by the Planning Inspectorate. Policy on Sustainable Design has been deleted alongside the Building for life component of Policy High Quality Design in response to the Housing Standards Review proposed by national government. The policy on Waste Management has been deleted at the request of DCC as it is replicated at a higher level within the Devon Waste Plan. The policy on Renewable and Low Carbon energy has been revised. A policy for the cross subsidy of affordable housing on exception sites is deleted. Rural exception sites, now includes low-cost housing. Policy on the Design of Housing has removed lifetime homes standard. The policy on Dwelling Sizes has been amended to reflect national standards. Bampton has been removed as a town from policies on Town centre development and Development outside town centres. Policy on the Protection of recreational land and buildings has been revised to include the protection of Local Green Spaces and makes reference to the role of neighbourhood plans as an alternative route for designation. Policy on Green Infrastructure in Major Development has been revised to remove reference to open space provision which is now included in Policy S5 Public open spaces. Policy on Other protected sites has been revised to make reference to priority protected habitats defined by UK and Devon Biodiversity Action Plans.
- 4.152 The remaining DM policies have been taken forward largely unaltered with no strategic alternatives identified as policies have generally been developed to reflect the NPPF position, locally or are written to reflect the Local Plan Reviews supporting evidence base. Please note

that the numbering of policies in the Local Plan Review have changed from the Local Plan Part 3: Development Management Policies document due to deletions and amendments of policies during the Local Plan Review process. Please see Appendix 2 for a more detailed description of the assessments.

5 Monitoring

5.1 Monitoring is important to understand the characteristics of the local area, assess the impact of policies and determine whether the strategy is delivering sustainable development so that the policies can be reviewed as appropriate. The Local Plan Review contains local indicators and targets to measure the Council's performance against relevant policies and legislation as well as any significant environmental effects. The monitoring outcomes are reported annually in Mid Devon District Councils' Monitoring Report which provides information on the following matters:

- Progress of local plans including the timetable for completion, stage reached and reasons for any delay;
- Any local plans or supplementary planning documents that have been approved or adopted, including relevant dates;
- Decisions not to implement any Local Plan Review policy including reasons and steps to implement the policy in the future;
- The number of market and affordable dwellings built in the reporting period and since the relevant Local Plan Review policy target was introduced;
- Any neighbourhood plans or development orders made in the district;
- Progress on the implementation of the Community Infrastructure Levy, if any; and
- Actions taken to ensure cooperation with other local authorities and prescribed organisations under the 'duty to cooperate'.

5.2 For convenience the Local Plan Review monitoring indicators, relevant policies and targets are reproduced in the table below.

Monitoring indicators

Indicator	Relevant Policies	Target	Implementation Agencies	Comments
Housing				
Housing trajectory showing net additional dwellings from 2013-2033	S2; S3; S4; S10; S11; S12; S13	Annual completions of 360 dwellings	Development industry, MDDC	
Affordable housing completions; number of dwellings	S1; S3	Annual average completions 100 per year.	MDDC, development industry, registered providers, Housing and Communities Agency	

Indicator	Relevant Policies	Target	Implementation Agencies	Comments
Affordable housing on rural exception sites	S3; DM6	>50% affordable housing	MDDC, development industry, registered providers, Housing and Communities Agency	Proportion of market housing on rural exception sites should be lower than that of affordable housing.
Net additional gypsy and traveller pitches	S3; DM7		MDDC	
Self-build completions	S3	5% on sites of 20+ dwellings	MDDC, development industry	
Sizes and types of dwellings completed	S1; S3; DM13	No target	MDDC, development industry	
Net density of new residential development	S9; DM1	None	MDDC, development industry	Policies do not set minimum housing densities but promote the efficient and effective use of land.
Availability of land for housing	S3; S4	>105% housing supply against requirement	MDDC, development industry	Target applied to whole district. Target will be revised to >120% if persistent under-delivery of housing is proven.
Development of housing on allocated sites	S3 S4 All housing allocations	>50% of completions	MDDC, development industry	
Total amount and percentage of housing development (including conversions) on previously developed land.	S1	No target	MDDC, development industry	
Number of parking spaces provided in new residential developments	DM5	≥1.7 car parking per dwelling	MDDC, development industry	

Indicator	Relevant Policies	Target	Implementation Agencies	Comments
Commercial				
Total amount of additional commercial floorspace for the whole district and individually for Tiverton, Cullompton, Crediton and rural areas	S2; S6; S10; S11; S12; S13; DM14; DM15, DM18	Average annual completions (square metres) Mid Devon 7700 Tiverton 1540 Cullompton 3850 Crediton 770 Rural Areas 1540	MDDC, development industry	Monitoring reports will break down the provision of use classes A1-A5, B1-B8, C1-C2, D1-D2 and sui generis uses.
Development of employment on allocated sites	S6; All commercial allocations	>50% of completions	MDDC, development industry	
Losses of commercial land in local authority area	S6; DM14; DM15; DM19	No Target	Mid Devon District Council, development industry, businesses	Loss of commercial land will be broken down according to use class.
Number of active businesses	S1; S2; S6	Maintain or increase number of active businesses.	MDDC, Heart of the South West Local Enterprise Partnership, private sector	
Job Seekers Allowance as a proportion of working age population each April	S1; S6	Remain below regional average	MDDC, development industry, business sector	Gives indicator for deprivation and employment.
Total amount of floorspace for town centre uses, in total and within town centres (Classes A1, A2, B1a and D2)	S6; S7	No target	MDDC, development industry, retail business sector, leisure industry.	

Indicator	Relevant Policies	Target	Implementation Agencies	Comments
Total amount of floorspace for town centre uses out of town centres (Classes A1, A2, B1a and D2)	S6; DM14; DM15	No target	Mid Devon District Council, development industry, retail business sector, leisure industry.	To monitor edge-of-centre and out-of-centre development, mainly retail.
A1 shops in primary shopping frontages.	S7; DM14	>65%	Mid Devon District Council, development industry, retailers	
Total amount and percentage of commercial floorspace on previously developed land.	S1	No target	MDDC, development industry	
Infrastructure				
Community Infrastructure Levy. Monitor annual receipt of CIL.	S8	No target.	MDDC, development industry	
Public open space provision and accessibility. Applications complying/failing to comply with quantity and access standards in Policy S5	S1; S5; S8	No target	MDDC, development industry, town and parish councils, Sport England, private and voluntary organisations.	Policy S5 sets out standards for open space provision. Smaller sites may provide financial contributions in lieu of onsite open space, with these funds being directed to the provision or improvement of public open space elsewhere.
Strategic Housing and Commercial Land Availability Assessment	S3; S4; S6	To review SHLAA/SCLAA when the Local Plan is reviewed	MDDC, development industry, infrastructure providers	

Indicator	Relevant Policies	Target	Implementation Agencies	Comments
Services available in towns and rural areas	S8; S10; S11, S12; S13; S14	No reduction in services	MDDC, Devon County Council, other organisations	Services include: Public transport, educational facilities, convenience stores, community halls
Loss of community facilities	S1; DM23	No total loss in settlement	MDDC, development industry	
Environment				
Number of Conservation Area Appraisals and Conservation Area Management Plans	S9	1 new or updated CAA/MP per year	MDDC	
Habitat surveys (where applicable) for consented developments demonstrate no loss in biodiversity.	S1; S9	100%	Natural England, MDDC, development industry	No loss may be achieved through avoidance, mitigation and compensation of impacts.
Developments permitted on protected sites (habitats)	S1; S9; DM28	No target	MDDC, Natural England, development industry	Policy directs development away from protected sites subject to criteria, so the number of consents should be low.
Ecological status of water bodies	S1; S9; DM4	No target	MDDC, development industry, Environment Agency.	Target in South West River Basin Management Plan is to achieve good ecological status for water bodies and protected areas by 2015. The Environment Agency monitors water quality.

Indicator	Relevant Policies	Target	Implementation Agencies	Comments
Consented renewable energy development by type and megawatts.	S1; S9 DM2	No target	Mid Devon District Council, development industry.	
Number of heritage assets added to the local register	DM25	No target	Mid Devon District Council, development industry, English Heritage	
Air Quality Management Areas	S1; S11; S12; DM3; DM4	Reduction in air pollutants within AQMAs	MDDC, development industry, Devon County Council, Highways Agency	
Enforcement				
Number of planning enforcement cases, notices and prosecutions	DM29	No target	MDDC	

6 Conclusions

- 6.1 The policies and site allocations in the Local Plan Review and the reasonable alternatives considered during its preparation have been subject to a detailed appraisal against the SA objectives which were developed at the scoping stage of the SA process. The SA has played an integral role in the development on the Local Plan Review. It has been used to consider the various strategic options and inform the most sustainable approach for the District. The SA has led to the refinement of policies to minimise adverse impacts and has ensured that sustainability issues for the District are addressed. The wording of the specific site policies seeks to ensure that a potential negative effects resulting from the development of sites is addressed at masterplanning and/or planning application stage. In general, the emerging Local Plan Review has been found to have a wide range of positive and significant positive effects on the objectives both cumulatively and through individual policies, although a number of potentially adverse impacts still remain. Recommendations made in previous iterations of the SA report and this proposed submission SA report has generally been thoroughly addressed, which has provided mitigation for potential adverse effects for both individual policies/proposals and the Local Plan Review as a whole.
- 6.2 The SA Report will be available for consultation alongside the new Local Plan Review Proposed Submission (February 2015). Following this consultation, all responses will be fully reviewed and addressed where appropriate. Depending on the extent of any changes made to the Local Plan Review, further SA work may need to be undertaken in relation to the Submission version. Any such SA work will either be presented in a SA note, as an addendum to this report, or an updated version of the whole report (depending on the scale of changes to the Local Plan Review). Monitoring will be used to assess both the positive and negative effects of implementing the Local Plan Review.
