

Written Response to Mr Quinn who raised a question relating to figures stated in the financial appraisal assessed by the Planning Committee and those figures supplied within the subsequent business case for the 3 Rivers Development Limited site at Bampton. The issue that he raised did not relate to anything on the agenda for this meeting and therefore it was not read out, but the Chairman did state that a response would be provided.

*The financial appraisal assessed by the Planning Committee used to determine whether an off-site affordable housing contribution could be made and the subsequent business case provided to Cabinet for consideration are for different purposes and therefore in reality may not have exactly the same view on some costs and/or revenues.*

*I can confirm that your question was given an explanation by the Company at this Committee meeting and was subject to further questions from the members in attendance. These questions and the discussion held thereafter relate to part 2 exempt information due to their commercial sensitivity. I can confirm that the Scrutiny Committee then forwarded a number of questions on to the subsequent Cabinet meeting that were considered and assisted in the ultimate decision that was made.*

*As members decided to hold all discussions on the Company's business case, both at Scrutiny and at Cabinet, in part 2, I am unable to provide you with any additional information/explanation.*

A question raised in the meeting by a Member of the Committee with regard to the number of fly tipping offences and whether there were any outstanding prosecutions – a written response was requested:

*There have been 622 incidents of fly tipping to date in 20/21 compared with 466 during 19/20.*

*There is one outstanding matter regarding enforcement being handled by the legal team.*
