<u>Risk: Right to Buy - Re-investing Receipts in New Affordable Rented Homes</u>: Failure to deliver an appropriate housing programme to provide new social rent Council housing may result in existing housing stock not being replaced at an adequate rate to offset RTB sales. This may also result in payment of interest to MHCLG on any unspent, ring-fenced 1-4-1 RTB receipts and have longer term impact on the overall financial health of the HRA over a 30-year plan period.

Service: Housing Services

Mitigating Action records

Current Status: Medium (12)	Current Risk Severity: 4 - High	Current Risk Likelihood: 3 - Medium
a 1 11 al 11	• • • • • • • • • • • • • • • • • • •	

Service Manager: Simon Newcombe

Review Note: We have submitted to MHCLG a detailed programme for delivering additional social rent homes over 21/22. The final scope of this programme will depend on on-going negotiations with MHCLG on potential extension to RTB receipts due to be spent in 20/21 (due to Covid etc) as well as 21/22 receipts already assigned in the programme. Going forward, the plan will be informed by a new Housing Strategy. The desired outcome being shaped is to have in place rolling 3-year RTB receipt/housing stock programme set at a minimum 100% stock replacement rate (based on average rates of RTB sales, reviewed annually). This will allow for receipts to be allocated to an identified and approved future development/redevelopment scheme or buy-back opportunity at date of receipt for utilisation over the required 3-year utilisation period, thereby mitigating the risks.

Mitigation Status	Mitigating Action	Info	Responsible Person	Date Identified	Last Review Date	Current Effectiveness of Actions		
In progress	Work with Members	Sustained work with elected members to ensure that the necessary balance is struck between constructive challenge and debate, without bringing the company or its activity into disrepute. Awareness raising relating to the roles of the council's scrutiny committee in assuring governance outcomes, the audit committee providing assurance on risk and mitigation, and the cabinet in its decision- making as shareholder. Use of external advice when necessary to provided added assurance.	Stephen Walford	11/11/2020	26/08/2021	Satisfactory (2)		
(15)	tatus: High	Current Risk Seve High	erity: 5 - Very	Current Medium	Risk Likeliho	ood: 3 -		

Service Manager: Stephen Walford

Review Note: The most recent audit notes that members need to strike a balance between governance and oversight that assures, and continued intervention that will commercially hinder. With governance matters now addressed, this risk sits predominantly with the actions of members who must work to balance the need for process checking, challenge and assurance, with the desire to use the company as a tool for political disagreement. As much as it might be (a point of political disagreement), the audit position is clear that such interventions are not beneficial to the company in commercial terms, and therefore unlikely to be in the long-term interests of the council in seeking to achieve its strategic objectives.

With monthly updates at Cabinet continuing, alongside regular auditing, members have structurally embedded a range of mechanisms to give confidence in the governance, oversight and assurance process. The reputational risk from members bringing the company into disrepute is therefore very much in individual members' hands.

Review Note: Plans to maximise economic potential of the pannier market are being reviewed to reflect the current challenges and future opportunities arising from changing retail habits as a result of the pandemic. The newly appointed Market Manager is embarking on a number of initiatives to acctract more traders and customers to the market. We currently await the results of the Community Renewal Fund bid which if successful will also have benefits to the pannier market.
