	3	3	6 CR8	9 CR1a; CR15	12 CR16	15 CR3
	2	2	4 CR4	6	8	10
	1	1	2	3	4	5
		1	2	3	4	5
		Risk Likelihood				

Appendix 2: Corporate Risk Register

CR1a	Culm Garden Village – Loss of capacity funding	Current Severity: 3	Current Likelihood: 3	Current Risk Rating: 9	
Risk Description: Possible discontinuance of Government funding support for Culm Garden Village activities, thereby affecting Mid Devon District Council Culm Garden Village team capacity and leadership function, resulting in project/programme slippage.					
Risk Owner: Group Manager for GED		Latest Review: 14/05/2025		Risk Type: Economic/ Financial	
Mitigating Actions				Responsible Officer	Current Effectiveness
CR1a.1	Funding opportunities: Lobby for further rounds of Homes England garden communities capacity funding		Group Manager for GED	Satisfactory	
CR1a.2	Identify alternative opportunities to secure funding to support the project – including from landowners/ developers involved in the Culm Garden Village project.		Group Manager for GED	Satisfactory	
Notes: This risk relates to the funding sources in place for the Culm Garden Village, rather than the overall delivery of the Culm Garden Village project. Capacity funding was secured for this financial year; however we do not currently have any assurances of funding for the next financial year. Although recent developments in relation to funding of the relief road are welcomed along with the capacity funding for this financial year, the risk remains higher than the target risk as longer term capacity funding remains uncertain.					

CR1b	Culm Garden Village – Delay/ impact to project arising from infrastructure delays	Current Severity: 5	Current Likelihood: 3	Current Risk Rating: 15	
Risk Description: Lack of Government funding for enabling infrastructure – Cullompton Town Centre Relief Road/ Junction 28/ Cullompton station re-opening – resulting in delays to scheme progression and housing delivery.					
Risk Owner: Group Manager for GED		Latest Review: 14/05/2025		Risk Type: Economic/ Financial	
Mitigating Actions				Responsible Officer	Current Effectiveness
CR1b.2	Junction 28, M5: Continue to work closely with Devon County Council on Strategic Outline Business Case with the aim of securing funding to upgrade Junction 28 – Devon County Council to submit bid to Government in March/ April 2024 following Devon County Council Cabinet approval.		Group Manager for GED	Fully Effective	
CR 1b.3	Cullompton station re-opening: Continue to work closely with Network Rail to ensure the timely submission of the Final Business Case to Government.		Group Manager for GED	Action Required	

Notes:

Funding now secured for provision of the Relief Road from Homes England. Significant progress with regard to land assembly. The Outline Business Case for J28 improvements has been submitted to Department for Transport (DfT) and awaiting a decision. A final Business Case was submitted to DfT Rail last year for the Cullompton Railway Station but the Restoring Your Railway programme was stopped by the new Government. It is hoped that there may be positive news announced with regard to funding for J28 improvements and the Railway Station at the June 2025 Comprehensive Spending Review.

CR2	Cyber Security	Current Severity: 5	Current Likelihood: 4	Current Risk Rating:20	
Risk Description: Inadequate Cyber Security could lead to breaches of confidential information, damaged or corrupted data and ultimately Denial of Service. If the Council fails to have an effective ICT security strategy in place. Risk of monetary penalties and fines, and legal action by affected parties.					
Risk Owner: ICT Operations Manager		Latest Review: 30/04/2025		Risk Type: Data Protection/Information Security	
Mitigating Actions				Responsible Officer	Current Effectiveness
CR2.5	Regular Vulnerability scans on network devices: ICT use 'Nessus' vulnerability scanner to access and detect vulnerabilities on all network devices. Mitigation is then completed to remove or reduce the risk due to the vulnerability. Although this has only been added now as an action, it has been running for a number of years.		ICT Operations Manager	Satisfactory	
CR2.6	Active Directory review: The current Active Directory (AD) (the address book for all users in MDDC to use computers) has been around for over 20 years. it has been managed, updated by ICT Staff and has a lot of clutter. A project is underway to review the configuration of AD to simplify the hierarchy and review the policies applied to the users, PCs and server on the MDDC Network. It will also provide a mean to fully incorporate the Microsoft and NCSC security baselines, to ensure full compliance and improve security.		ICT Operations Manager	Satisfactory	
CR2.7	Establish Supply Chain Risk Management: There is no risk on the IT risk register to highlight supplier failure. It would be beneficial to include a risk regarding supplier failure to ensure that all associated supplier risks & potential controls are considered, e.g. a Standard Operating Procedure and/or minimum requirements to obtain assurance e.g. from regular meetings etc.		Head of Digital Transformation & Customer Engagement	Action Required	
Notes:					

Work and review of cyber security is always on-going. The annual IT Health Check was completed in March and the ICT Team are working through the mitigation list to ensure compliance with PSN (Public Services Network) certification.

Work has also been completed on Cyber Assessment Framework (CAF) assurance with the Ministry of Housing, Communities and Local Government (MHCLG) and an improvement plan has been developed. As soon as MHCLG has reviewed the improvement plan, work will commence on any mitigation required - submission has been delayed by MHCLG, due to issues with their secure portal to upload documents.

The procurement of the Managed Cyber Security Monitoring, Detection and Response (MXDR) service has completed and the contract will commence on 12/05/2025. The service should be fully active before the next review.

CR3	Failure to meet Climate Change Commitments by 2030	Current Severity: 3	Current Likelihood: 5	Current Risk Rating: 15
Risk Description: Due to a variety of factors, there is a risk that the Council will not meet its goal of becoming carbon neutral by 2030. There is also a risk that the Council will not achieve district-wide progress to meet obligations under the Climate Act 2008 for climate adaptation (resilience) and mitigation (emission reductions).				
Risk Owner: Head of Finance, Property & Climate Resilience		Latest Review: 12/05/2025		Risk Type: Environmental
Mitigating Actions		Responsible Officer		Current Effectiveness
CR3.1	Policy and Strategy: Policy and strategy relevant to the climate emergency includes: • Corporate Plan 2020-2024 sets a number of relevant aims; • Climate Strategy and Handbook 2020-2024; • Housing Strategy 2021-2025; • Procurement Strategy (March 2023); • Cabinet adopted a new Climate Emergency planning policy statement (March 2023); • Local Plan 2013-2033 review; Plan Mid Devon sets the Climate Emergency as the top overarching priority for the next Local Plan.	Climate and Sustainability Specialist		Satisfactory
CR3.2	Oversight and decision-making: To embed a consistent approach to committee reports, project reports and decision-making, considering the potential climate impacts and opportunities and adaptation needs linked to the climate crisis.	Climate and Sustainability Specialist		Satisfactory
CR3.3	Climate Change Strategy and Climate Action Plan: Cabinet approved the new Cabinet Climate Change Strategy (2025-2028) and a Climate Action Plan (CAP) in December 2024. Themed alignment of strategic, policy and operational activity. CAP to be reviewed annually to reflect the pipeline of planned projects, budgets, etc. The	Climate and Sustainability Specialist		Satisfactory

	Strategy serves as a starting point for engagement with communities, businesses and other partners, to co-create a vision.		
Notes: This review recognises the 2024-2028 Climate Change Strategy (CCS) and that the annual Climate Action Plan (CAP) is in place. A review of the forthcoming progress could justify a change of risk level. The new CCS aligns with the Corporate Plan 2024-28 and with the Devon Carbon Plan, with themes linked to all of the Council's Policy Development Groups. The joined-up approach and commitment to an annual operational CAP shows close connection between strategic, policy and operational activity, intended to foster a shared sense of ownership for delivery, across the organisation. The CCS serves as a starting point for engagement with communities, businesses and other partners, to co-create a vision for a sustainable future. Summary notes below amended from the previous review. <u>Corporate:</u> The Council's annual carbon footprint has decreased since the 2018/19 baseline (2024/25 report to be prepared soon). This is published online at https://sustainablemiddevon.org.uk with highlights of the most recent action to respond to the climate emergency. Progress achieved with key aspects, where under direct control. All Council facilities now on a renewable electricity tariff and the Council has invested to improve energy efficiency at its facilities. Capital investment to decarbonise the Culm Valley Sport Centre will take place in 2025 following on from the 2023/24 projects at Crediton and Tiverton leisure centres. A small proportion of the fleet - 10 vans have been replaced by electric vehicles (EVs). The Council has guidance on climate and sustainability statements (for project management and committee reports) to cultivate consistent, meaningful assessments of impacts and related actions to address them. (Action CR3.2.) <u>Community:</u> Relevant activities in partnership with/ in support of communities include award-winning net zero ready housing with adaptation features, Green Enterprise Grants, tree planting, community orchards, engagement projects, boosting green transport infrastructure (active travel and EVs), planning.			

CR4	Homes for Ukraine Scheme	Current Severity: 2	Current Likelihood: 2	Current Risk Rating: 4
Risk Description: There is a risk of the 'Homes for Ukraine scheme' failing should the host relationship breakdown and re-matching is not an option. Where refugees cannot afford to pay for private accommodation the Council has a Homelessness Duty.				
Risk Owner: Head of Housing & Health		Latest Review: 27/05/2025		Risk Type: Social
Mitigating Actions			Responsible Officer	Current Effectiveness
CR4.9	End of hosting arrangements: There is currently uncertainty over whether the thank you payments for hosting arrangements will continue beyond three years. Once the hosting comes to an end the Ukrainian guests will need to find alternative		Operations Manager - Public Health	Satisfactory

	accommodation and this could be within Mid Devon or further afield. Mid Devon housing options will be required to assist with housing this group.		
CR4.10	Funding for guest grants: Mid Devon provides grants to Ukrainian guests so they can access the private rented sector when their hosting ends. Grants may not be available in 2025/26. The current Ukraine funding is being kept under review with a view to any underspend being earmarked for 2025/26 to continue grants. This will help mitigate pressures as a result of hosting arrangements ending. Mid Devon has nine houses available as temporary accommodation if they are unable to find private rented accommodation at the time the hosting ends.	Operations Manager - Public Health	Satisfactory
Notes: Additional arrivals continue to be very low. Local Authority Housing Fund 1 funding spend complete and ten temporary accommodation (TA) properties in use. These substantially support TA where required for Homes for Ukraine guests. Ongoing support for transition into private rental sector continues to be effective (CR4.9)			

CR5	Information Security		Current Severity: 4	Current Likelihood: 3	Current Risk Rating: 12
Risk Description: Inadequate data protection could lead to breaches of confidential information and ultimately enforcement action by the ICO.					
Risk Owner: Head of Digital Transformation & Customer Engagement		Latest Review: 09/05/2025		Risk Type: Data Protection/Information Security	
Mitigating Actions			Responsible Officer		Current Effectiveness
CR5.2	Compliance Tools: Improvement of monitoring activity and implementation of tools assessing near misses or user education opportunities. May include better alerts on data sharing within/without MS tenant, information tagging.		Head of Digital Transformation & Customer Engagement		Action Required
CR5.3	Supply Chain Management: Inadequate supply chain management decreases organisational resilience and information security. Manual review is slow and unresponsive. Procurement practice has been strengthened. Market testing and business case being pursued for software solution to manage supplier risk overview. This will be done via ITIG board during summer 2025. A risk review is also being initiated by the Head of Service on cyber risk in conjunction with Cyber Assessment Framework assurance findings.		Head of Digital Transformation & Customer Engagement		Satisfactory
Notes: CR5.3: Added in April 2025					

Business case being prepared for supplier management tool to better understand supplier risk and monitoring. Risk review underway as part of Cyber Assessment Framework external assurance improvement implementation plan.

CR7	Financial Sustainability	Current Severity: 4	Current Likelihood: 4	Current Risk Rating: 16
Risk Description: The council faces a range of financial challenges. We are subject to ongoing budget reductions whilst the cost of providing services continues to increase due to a range of inflationary pressures. We are also subject to single year budget settlements which impacts on the ability for medium term financial planning. We need to be able to plan and meet these challenges so that we can continue to deliver effective services and achieve the priorities we wish to.				
Risk Owner: Head of Finance, Property & Climate Resilience		Latest Review: 14/05/2025	Risk Type: Economic/Financial	
Mitigating Actions			Responsible Officer	Current Effectiveness
CR7.2	Identify Efficiencies: Taking proactive steps to increase income and reduce expenditure through efficiencies, vacancies that arise and delivering services in a different way.		Head of Finance, Property & Climate Resilience	Satisfactory
CR7.5	Medium term planning: Work to close the budget gap is on-going. A range of options are being considered but Covid, business rates and uncertainty over fair funding review make the situation extremely challenging. To close the budget gap and maintain services: We continue to work with managers to reduce costs and explore new income streams.		Head of Finance, Property & Climate Resilience	Satisfactory
Notes: A balanced budget for 2025/26 has been agreed. The future year estimated deficits remain at over £3m with significant uncertainty around Local Government funding following announcements of fundamental changed to grant funding formulae and the Business Rates retention scheme. Medium Term Financial Planning discussions are in progress with a strategy being developed that will mitigate longer term shortfalls.				

CR8	Quality of Planning Committee Decisions	Current Severity: 3	Current Likelihood: 2	Current Risk Rating: 6
Risk Description: Planning decisions are monitored at Government level nationally – the risk is to stay significantly below 10%. Over 10% could put a Local Planning Authority into special measures. Links to Performance Indicator measures 11a, 11b, 12a and 12b.				
Risk Owner: Director of Place & Economy		Latest Review: 15/05/2025		Risk Type: Reputation
Mitigating Actions		Responsible Officer		Current Effectiveness

CR8.3	Regular informal planning committee meetings: Keeping planning committee informed of all appeals and upcoming planning policy, and any actions the Council is making.	DM Manager / Director of Place & Economy	Satisfactory
Notes: Appropriate training being given to Members to assist with decision making as well as informal discussions to assist members where required on upcoming legislation and planning changes.			

CR9a	Risk Name: Reputational Impact of 3 Rivers			
Risk Description: The soft closure of the company has now been completed. So the remaining reputational risks are that public debate in future inadvertently damages the value of assets by hindering the remaining sales. Public debate has, at times, included unhelpful and inaccurate statements about the company and the consequential impact on the council, with these inaccurate statements being repeated in wider circles. This risk is likely to continue until such time as all remaining assets are sold.				
Risk Owner: Chief Executive		Latest Review: May 2025	Risk Type: Reputational	
Mitigating Actions			Responsible Officer	Current Effectiveness
CR9a.1	Committee and council chairs feeling empowered to appropriately challenge poor behaviour during public meetings.		Chief Executive and Director of Legal, People & Governance	Satisfactory
CR9a.2	Elected members being comfortable with steps being taken and managing debate amongst themselves in a respectful way.		Deputy Chief Executive and Director of Legal, People & Governance	Satisfactory
CR9a.3	Updates on Sales Progress: Future updates on sales progress will be included in Cabinet financial monitoring reports		Deputy Chief Executive and Head of Finance, Property & Climate Resilience	Satisfactory
Notes: This risk was removed from the Corporate Risk Register in May 2025. The company undertook no operational activities in 2024/25 and was formally dissolved on the 26 November 2024 and all assets/liabilities were transferred to the Council during the 2023/24 financial year. As such it has been decided that this corporate risk can now be removed. Any updates on the assets transferred to the Council will be made in the standard financial performance reports received by the Cabinet.				

CR10	Cullompton Town Centre Relief Road	Current Severity: 5	Current Likelihood: 3	Current Risk Rating: 15
Risk Description: Inability to deliver the Cullompton Town Centre Relief Road				
Risk Owner: Group Manager for GED		Latest Review: 15/05/2025	Risk Type: Economic/Financial	
Mitigating Actions			Responsible Officer	Current Effectiveness
CR10.4	Land Assembly: Continue land assembly discussions so as to de-risk the project, assist in unlocking scheme delivery and increase the likelihood of securing funding.	Group Manager for GED		Satisfactory
CR10.5	Complementary projects: Continue to develop and deliver complementary projects such as the Railway Station and the Heritage Action Zone public realm scheme. This will support the case for investment in the town and demonstrate the capacity to deliver.	Group Manager for GED		Satisfactory
Notes: Works are progressing well with the delivery of the relief road, which is anticipated to start in summer 2026. Land assembly is going well with the acquisition of four land parcels including the Tesco land. A Compulsory Purchase Order process to acquire other land parcels will commence imminently. Works continue to relocate the sports clubs that are effected by the road. Risk is expected to reduce further in the coming weeks as further progress is made with delivery.				

CR11	Cost of Living Crisis	Current Severity: 4	Current Likelihood: 4	Current Risk Rating: 16
Risk Description: The high rates of inflation experienced in 2022 and 2023 have the potential to impact on council employees, residents, communities and businesses in Mid Devon. In turn this may affect the council in terms of increased costs, reduced council income, and put additional pressure on council services.				
Risk Owner: Head of Revenues, Benefits & Leisure		Latest Review: 30/04/2025		Risk Type: Financial, Social
Mitigating Actions			Responsible Officer	Current Effectiveness
CR11.1	Benefit administration: The council delivers a range of benefits which support the financial position of our residents. This includes the Housing Support Fund, Discretionary Housing Fund, and the Exceptional Hardship Fund.	Operations Manager - Revenues Benefits and Recovery		Fully Effective
CR11.2	Council Tax Reduction Scheme: The council has introduced a new scheme (from 1 April 2023) which provides a more generous level of support.	Operations Manager - Revenues Benefits and Recovery		Fully Effective

CR11.3	Shared Prosperity Fund (SPF): The SPF and Rural England Prosperity Fund Investment Plans have a number of projects designed to support businesses and community organisations over Jan 2023 – March 2025. This includes grant schemes to support innovation and decarbonisation projects including those that reduce energy costs and increase productivity.	Growth and Regeneration Officer	Fully Effective
Notes: The risk remains the same because financial vulnerability is a very real thing still. Household Support Fund 7 is being bought in to help with food and energy costs. Council Tax Reduction scheme is circa £5m, and we also administer exceptional hardship and Discretionary Housing Payments. Council Tax collection whilst improved is hard to achieve.			

CR12	Housing Crisis	Current Severity: 4	Current Likelihood: 3	Current Risk Rating: 12
Risk Description: Failure to supply sufficient housing to meet Mid Devon's needs leading to increased homelessness and increased temporary accommodation (TA). There may be insufficient TA to meet demand and financial pressure is placed on the Council through increasing volume of and dispersed provision of TA. Co-linked failure to prevent homelessness occurring through increasing demand on resources, poor existing housing and failure to meet prevention duty/deliver mitigating actions including support to vulnerable residents. It is a statutory duty on the Council to prevent and provide relief/assistance to people threatened with or actually presenting as homeless. There is a local, regional and national shortage of affordable housing including social housing at the most affordable social rent level with a significant, growing waiting list of those registered on Devon Home Choice. Together with the current, ongoing cost of living crisis and other pressures this is leading to a growing housing crisis.				
Risk Owner: Head of Housing & Health		Latest Review: 27/05/2025		Risk Type: Financial, Social
Mitigating Actions			Responsible Officer	Current Effectiveness
CR12.1	MDDC Housing Strategy 2021-2025: Coherent, corporate approach to providing affordable homes and maintaining housing quality	Head of Housing & Health		Fully Effective
CR12.2	MDDC Homeless Prevention & Rough Sleeping Strategy 2020-2025: Focus on rough sleeping, prevention, accommodation options and client support	Head of Housing & Health		Satisfactory
CR12.3	Strategic lobbying on social housing funding, flexibilities and homelessness pressures: Continued membership of DLUHC LA Strategic Housing Advisory Group	Head of Housing & Health		Fully Effective
CR12.4	Devon Housing Forum: Regional engagement and collaboration on affordable housing delivery and supported housing – continued engagement	Head of Housing & Health		Satisfactory

CR12.5	Local Plan housing delivery: Market provision of affordable homes	Forward Planning Team Leader	Satisfactory
CR12.6	Mid Devon HRA Development Programme: 500 new homes 2022/23 – 2026/27	Head of Housing & Health	Satisfactory
CR12.7	Temporary Accommodation: Opportunities to purchase HMO or similar shared market accommodation to meet TA needs/successful business cases made into capital programme. Two HMOs recently purchased, available 2023/24	Head of Housing & Health	Fully Effective
CR12.8	Empty Homes: Bringing empty homes back in to use/local leasing scheme for TA (link to CR12.7) or to alleviate wider	Head of Housing & Health	Action Required
CR12.9	Long-term development voids: Effective use of long-term development voids in Mid Devon Housing stock as TA where safe	Head of Housing & Health	Fully Effective
CR12.10	Ivor Macey House: Ongoing provision of Ivor Macey House supported TA accommodation (MDH HRA lease to G/F)	Head of Housing & Health	Fully Effective
CR12.13	Funding applications: Successful bids into DLUHC Rough Sleeper Initiative (RSI). £300k+ RSI secured over 3-year programme from 2022/23	Head of Housing & Health	Completed
CR12.15	Private Sector Homes for Ukraine: Team Devon Homes for Ukraine scheme Private Sector Housing transition support	Head of Housing & Health	Fully Effective
CR12.16	Residents Financial Support: Cost of living pressure, grants and signposted support, help with/access to benefits (https://www.middevon.gov.uk/residents/residents-financial-support/)	Head of Revenues, Benefits & Leisure	Satisfactory
CR12.17	Housing Assistance Policy (Better Care Funding): living well at home/homeless prevention and Home Start grants/loans	Head of Housing & Health	Fully Effective

Notes:

CR12.13 Marked as complete in May 2025.

New Cabinet Member will be briefed on the Housing Strategy for 2025 onwards. Homes Policy Development Group Value for Money and best practice report on Modern Methods of Construction modular building in Mid Devon Housing for Cabinet decision drafted.

Developing Devon Strategic Housing Pipeline (MDDC sites) further with Director of Place and Homes England. Ongoing successful bids into Homes England Affordable Homes Programme and Ministry of Housing, Communities and Local Government PBP with a number of new Housing Revenue Account development projects live/supported.

Successful draw down of Devon Care Leaver funding to support specific accommodation. Successful bid for additional Local Authority Housing Fund 3 funding to support further temporary accommodation (TA) acquisition. Belmont Rd TA fully occupied, planning pending for St Pauls TA property for conversion to additional TA. Cabinet decision confirmed for purchase of further additional Tiverton property for TA - surveys and acquisition pending.

CR15	Corporate Property Fire Safety	Current Severity: 3	Current Likelihood: 3	Current Risk Rating: 9
Risk Description: Upcoming changes in legislation will place more stringent demands on the council in terms of fire safety across its corporate property estate. Failure to meet these standards could lead to penalties being imposed by the Fire Service including fines, which would be an additional cost to any investment required to complete repairs. The corporate property estate requires investment to ensure that significant fire safety risks, identified through external fire safety health checks, are mitigated. There are a number of sites which require fire safety checks. It is likely that these will identify fire safety risks that will require remediation. These will be addressed on a priority basis. As with any risk associated with fire, there is a potential for damage or loss to property and/or life.				
Risk Owner: Chief Executive		Latest Review: 14/05/2025		Risk Type: Physical, Reputational, Financial
Mitigating Actions			Responsible Officer	Current Effectiveness
CR15.2	Investment Programme: Ensure that funding has been allocated and is drawn down to implement fire safety improvements.		Contracts and Services Manager	Satisfactory
Notes: Initial works for fire dampers and escape routes is largely complete across Phoenix House and the three leisure centres. Some works will need to be finalised post completion of a separate project at Culm Valley. Works at Old Road are out to tender. Next stages of the programme of works are being considered. Exe Valley is complete but has some delays to complete fire dampers and re-install fire expansion collars to pipe work in the plant room Culm Valley Leisure Centre is 80% complete, this work is suspended for the moment awaiting some grant climate work to be complete, as it would mean doing the fire safety work twice. Lords Meadow is underway and should complete within this fiscal year.				

CR16	Building Control Service viability	Current Severity: 3	Current Likelihood: 4	Current Risk Rating: 12
Risk Description: The NMD Building Control Partnership has been struggling with maintaining staffing levels for the past two years owing to a national shortage of skilled Building Control officers and skilled support staff. The service has continued to meet obligations by utilising agency staff. But changes presented through the Building Safety Act 2023 and the creation of the Building Safety Regulator are likely to result in further pressures in terms of attracting and retaining skilled permanent staff and in terms of service viability owing to additional duties placed upon the service in an increasingly challenging economic climate.				

Risk Owner: Building Control Manager		Latest Review: 15/05/2025		Risk Type: Reputational	
Mitigating Actions				Responsible Officer	Current Effectiveness
CR16.2	Recruitment and retention: Address staffing and skills shortage and reliance on agency surveyors by continuing to seek to recruit new staff to the service, building on recent successes.			Building Control Manager	Satisfactory
CR16.4	Prepare for new reporting obligations: Continue to preparation for the introduction of the new reporting obligations for the BSR, due to commence in April 2024 – including ensuring appropriate systems are in place.			Building Control Manager	Satisfactory
Notes: Continue to trade with three vacant Inspecting positions, with one of these being filled with an agency inspector. Have one Technical Support vacancy and recruitment is well advanced.					

CR17	Severe Weather Emergency Recovery	Current Severity: 4	Current Likelihood: 3	Current Risk Rating: 12	
Risk Description: When there is an event/incident which has potential to harm people or property a multi-agency response may be required in the form of declaring an “Emergency” through the Local Resilience Forum (LRF). This process is split into two phases; 1: The Response which is chaired predominantly by the police and is often heavily focused on the blue light services during/immediately following the event/incident. 2: Recovery which is chaired by the Local Authorities and is more focused on Local Councils working with communities to achieve a state of new normality. Because of this, MDDC has a large role to play within the Recovery Phase as a Category 1 responder of which there are many risk to the organisation from Financial, Reputational and Legal. This risk assessment is specifically looking at our most common event that escalates to an emergency which is Severe Weather including extremes in heat/cold, floods and wind etc.					
Risk Owner: Head of Housing & Health		Latest Review: 09/05/2025		Risk Type: Economic/Financial/Capacity/Reputation	
Mitigating Actions				Responsible Officer	Current Effectiveness
CR17.1	CMT Capacity: There is a member of CMT on rota. This role covers incident manager (response) or can be specifically assigned to the recovery phase including chairing/ co-chairing the LRF recovery group. This will be in addition to their regular responsibilities. Due to this, the Resilience Officer or another Corporate Manager can be brought in to assist with the multi-agency duties as required. With CMT now being five people, there is increased pressure and meeting this mitigation will be dependent on the CMT having no vacancies and		Head of Housing & Health	Satisfactory	

	being available during the recovery phase of an incident. This action will be kept under review.		
CR17.2	Adequate Continuity Planning: Each service area needs up to date Business Continuity Plans to effectively retain critical services during and after an emergency. Training will be provided and plans reviewed by the Resilience Officer.	Resilience Officer	Satisfactory
CR17.3	Overall Staff Capacity: Each business area will understand their critical functions and ensure they are functioning during recovery. Above this each service area will manage their own capacity to deal with recovery plus their business as usual through agency, overtime and mutual aid as detailed within their Business Continuity Plan.	Resilience Officer	Satisfactory
CR17.4	Out of Hours Capacity: Only CMT, Housing and Waste have Out of Hours within their contracts and so other services would need to rely on goodwill/ civic duty to cover any out of hours work during response and recovery. Paper detailing current out of hours gaps to be produced alongside a clear outline of which critical roles need some level of out of hours cover.	Resilience Officer	Action Required
CR17.6	Waste Collection Backlog: Due to the nature of the incident it is likely that there will be additional waste collection requirements in terms of debris, missed collections due to Health and Safety considerations, and additional waste from properties damaged by the weather (i.e. flooded properties). Additional agency staff/ overtime may be required alongside additional routes to meet the backlog and keep up with increased demand.	Head of People, Performance & Waste	Completed
CR17.9	Reputational damage: During the recovery phase of an emergency there will be a lot of differing priorities and expectations from our communities. This can lead to potential conflicts, disputes and confusion. The Communications Team will work to give clear messaging which is in line with the multi-agency communications plan. Sufficient media training will be given to the Leadership Team and key members of the Council to ensure the correct information is being released to the media and communities.	Head of Digital Transformation & Customer Engagement	Satisfactory
Notes: CR17.6 marked as complete in May 2025. Service level business continuity plans continue to be worked on. New training for Recovery will be rolled out at the end of 2025 and will develop capability to adequately manage an incident response phase.			

CR18	Housing Rent Error Correction		Current Severity: 4	Current Likelihood: 2	Current Risk Rating: 8
Risk Description: That the Council doesn't effectively manage the correction and repayment process associated with the recently identified housing rent error.					
Risk Owner: Head of Housing & Health		Latest Review: 27 May 2025		Risk Type: Reputational, Financial	
Mitigating Actions				Responsible Officer	Current Effectiveness
CR18.1	Officer Review Groups: These have been operating since the error was identified and regular update meetings are held with: the Regulator for Social Housing; the Department for Work & Pensions; and our external auditors Bishop Fleming			Head of Housing & Health and Head of Revenues, Benefits & Leisure	Satisfactory
CR18.2	Key stakeholders: We also are communicating regularly with key local stakeholders: Churches Housing Action Team (CHAT); Citizens' Advice Bureau; Involve, etc.			Head of Housing & Health and Head of Revenues, Benefits & Leisure	Satisfactory
CR18.3	Progress Updates: Regularly provided to the two relevant Cabinet Members and formal update reports will be made to Cabinet as and when required.			Deputy Chief Executive	Satisfactory
Notes: Regulatory decision published by Regulator for Social Housing (RSH) who are satisfied with actions taken to address historic error. Regular monitoring arrangements in place between RSH and Council on plan implementation. Officer resources/team in place. No benefit refunds likely to commence June 2025, those impacted by Housing Benefits July-August 2025. Universal Credit/ Department for Work and Pensions (DWP) refunds await national policy decision by DWP via Treasury. Regular tenant, Homes PDG, Cabinet and Scrutiny updates being provided.					

CR19	Devolution and Local Government Reorganisation	Current Severity: 4	Current Likelihood: 5	Current Risk Rating: 20
Risk Description: The Government published its English Devolution White Paper in December 2024, which set out its intended directions for the future arrangements of local government service provision in England. It introduced the concept of 'Strategic Authorities' (SA), which it is intended will be large entities of circa 1.5m people – to be headed politically by a directly elected Mayor. It is not yet clear what expanded grouping will cover Devon, since our current Combined County Authority (CCA) covering Devon and Torbay is only around 975k (this could be a peninsula geography, expanded to include Plymouth and Cornwall, but this is not yet confirmed). How Mid Devon's influence is brought to bear in any new SA of this scale is not yet clear.				

In addition, the Government has made it clear that beneath these new Strategic Authorities, their desire is to see new councils created of a unitary structure and of a scale suitable to withstand future service pressures. This is described as being of 500,000 population, although exceptions below this are possible. In Devon, this would mean the restructuring of all current councils, with the likelihood that Devon County, the 8 districts, Torbay (unitary) and potentially Plymouth City council will all cease to exist in their current form by 2028, to be replaced by larger restructured council(s) covering the Devon area. Clearly, such a change will impact significantly upon corporate delivery and objectives as work is undertaken to identify what the future looks like and how to best restructure and realign service provision across Devon with a view to seeking to use this as an opportunity to enhance outcomes for our residents and businesses.

Risk Owner: Chief Executive		Latest Review: 28/05/2025	Risk Type: Political, Legal, Financial	
Mitigating Actions			Responsible Officer	Current Effectiveness
CR19.1	Effective collaboration: To continue to work with other system leaders across Devon to maximise collaboration and share effort/resource where possible		Chief Executive (and Council Leader)	Satisfactory
CR19.2	Performing during transition: To use the well-established relationships across Devon to continue to meet strategic aims over the coming years while change is managed.		Chief Executive (and Leadership Team)	Satisfactory
CR19.3	Staff communication: To communicate regularly with staff to provide reassurance, explanation, updates and context, in order to minimise concern and maximise effective operational delivery across this changing organisational context.		Chief Executive	Satisfactory
CR19.4	Engage with all council members ahead of key decision points; 21 st March and 28 th November 2025 being notable known dates at this time.		Chief Executive (and Council Leader)	Satisfactory
CR19.5	Interim Plan: Submit interim plan to government alongside as many collaborating authorities as possible – completed alongside 7 of 8 districts, with both Torbay and Devon CC noting it as one of their proposed options.		Chief Executive (and Council Leader)	Complete
Notes: CR19.5: Added and marked as completed in March 2025. Awaiting feedback from Government on interim plan submission.
