

Report for:**Cabinet**

Date of Meeting:	2 December 2025
Subject:	Annual Infrastructure Funding Statement; The Infrastructure List
Cabinet Member:	Cllr Steven Keable, Cabinet Member for Planning & Economic Regeneration
Responsible Officer:	Andrew Jarrett, Deputy Chief Executive and S151 Officer
Exempt:	There are no exemptions within the document(s)
Wards Affected:	District wide
Enclosures:	Mid Devon District Council Infrastructure List (Appendix 1)

Section 1 – Summary and Recommendation(s)

The Council maintains an Infrastructure List for the purposes of identifying those items of infrastructure that it intends to fund, either wholly or partly, through development (developer contributions, also known as section 106 (S106) agreements). The list is informed through development plans, which could include neighbourhood plans, and prioritised in accordance with the importance of the infrastructure item in relation to the implementation of the Local Plan, together with requirement to spend existing developer contributions on the delivery of infrastructure within designated timescales. The Infrastructure List is reviewed and updated annually and Cabinet are requested to approve the updated Infrastructure List for publication on the Council's website as part of the statutory annual Infrastructure Funding Statement.

Recommendation(s):**To Cabinet that:**

- 1. The list of infrastructure as amended (Appendix 1; the Mid Devon Infrastructure List) that the Council intends to fund, either wholly or partly, by developer contributions is approved.**

2. **The Infrastructure List is included within the annual Infrastructure Funding Statement (IFS) to be published on the Council's website by 31st December 2025.**

Section 2 – Report

1.0 Introduction

- 1.1 Developer contributions is a collective term mainly used to refer to the Community Infrastructure Levy (CIL) and planning obligations (commonly referred to as Section 106 or S106 obligations after Section 106 of the Town and Country Planning Act 1990). These are planning tools that can be used to secure financial and non-financial contributions (including affordable housing), or other works, to provide infrastructure to support development and mitigate the impact of development. Developer contributions might also relate to highways works secured under Section 278 of the Highways Act.
- 1.2 Developer contributions are normally a key component of any authority's approach to developing and delivering an infrastructure strategy for their area. Effective infrastructure planning, prioritisation and governance of spend are critical to supporting the delivery of sustainable development and growth. Local authorities have a fundamental role in leading the coordination and delivery of infrastructure that will support their areas.
- 1.3 The Mid Devon Community Infrastructure Levy (CIL) draft charging schedule was withdrawn from its public examination in 2021 and as such Mid Devon is not a CIL charging authority.
- 1.4 Mid Devon currently secures funding for infrastructure and affordable housing though the use of Section 106 planning obligations and Section 278 highways agreements (via Devon County Council).
- 1.5 Identification of S106 requirements should be driven by the impact of specific development(s) and the need to deliver local plan policies. Requirements for developer contributions should be clearly identified in local plan documents, consulted on and tested for viability. The Mid Devon Infrastructure List is the document that identifies and prioritises those requirements.
- 1.6 Developer contributions need to deliver infrastructure or other mitigation measures that support development. There is a statutory responsibility to make sure this happens, and legal and reputational risk where it does not.
- 1.7 Most of the legal agreements containing planning obligations also place an obligation on the Local Authority to spend the money within a designated timescale (which varies from one agreement to another but is commonly ten years).

- 1.8 There need to be clear and transparent processes that ensure timely and effective spend that comply with the legislation on the use of developer contributions. Failure to have clear processes that take you from strategy to allocation and spend on a project is, along with failure to identify priorities, a major cause of unspent developer contributions.
- 1.9 The Community Infrastructure Levy (Amendment) (England) (No. 2) Regulations 2019 made it a requirement that contribution-receiving authorities must publish an Infrastructure Funding Statement (IFS) by the 31st December annually. The objective of an IFS is to improve transparency of monitoring and reporting so that monies secured, received, allocated, spent and delivered can be followed through the system.
- 1.10 The information published in the IFS responds to questions that are frequently asked of authorities through Freedom of Information (FOI) requests and should be information that can be readily accessed. The annual IFS is published on the Council's website prior to 31st December each year.
- 1.11 The Community Infrastructure Levy (Amendment) (England) (No. 2) Regulations 2019 (section 121A) sets out the required components of the IFS, namely:
 - (a) a statement of the infrastructure projects or types of infrastructure which the charging authority intends will be, or may be, wholly or partly funded by CIL ("the infrastructure list");
 - (b) a report about CIL, in relation to the previous financial year ("CIL report");
 - (c) a report about planning obligations, in relation to the reported year ("section 106 report").
- 1.12 The Mid Devon Infrastructure List is intended to satisfy part (a) of the IFS. In line with the approach taken previously, although Mid Devon District Council is not a CIL charging authority it may, nevertheless, be considered both beneficial and transparent to continue to publish a list of the infrastructure to be funded wholly or partly by developer contributions over the forthcoming year.
- 1.13 On the basis that Mid Devon District Council is not a CIL charging authority there will be no CIL report published within the IFS.
- 1.14 The IFS will therefore comprise two component parts; the infrastructure list and the section 106 report.
- 1.15 The section 106 report is a series of absolute facts and figures which will be signed-off by Finance and Senior Management prior to publication. Members will be notified when the IFS (both component parts) are completed and published.
- 1.16 The National Planning Policy Guidance also advises that the infrastructure funding statement should set out the future spending priorities on infrastructure and affordable housing. This will not dictate how funds must be spent but will set out the local authority's intentions.

- 1.17 The Mid Devon Infrastructure List is prioritised in accordance with the importance of the infrastructure item in relation to the implementation of the Local Plan, together with requirement to spend existing developer contributions on the delivery of infrastructure within designated timescales. For example, affordable housing delivery is essential to the delivery of the Local Plan, and also the Council holds sums of unallocated contributions which are required to be expedited for expenditure before they become at risk of being returned to the developer under the terms of the legal agreement. Therefore, affordable housing is a high priority on the infrastructure list.
- 1.18 The Mid Devon Infrastructure List is a live document capable of being updated at any time. The version of the list proposed for publication is a snapshot in time and includes the best information that is available at the point of its approval and publication. It has been informed through work undertaken as part of the preparation of the Mid Devon Local Plan Review 2013 – 2033. The Infrastructure List can also be informed through infrastructure needs identified in other development plans in Mid Devon i.e. the Devon Minerals and Waste Plans, and Neighbourhood Plans where these have passed their referendum and form part of the statutory development plan for their local area. It can also be informed through infrastructure needs identified through the masterplanning of planned urban extensions and town centres.

2.0 Infrastructure List Review

- 2.1 Silverton Neighbourhood Plan was formally ‘made’ on 24 April 2024 following a successful referendum held on 29 February 2024 and now forms part of the statutory development plan for the Silverton area. Willand Neighbourhood Plan was subsequently ‘made’ on 23 April 2025 following a successful referendum held on 27 February 2025 and now forms part of the statutory development plan for the Willand area.
- 2.2 The infrastructure priorities of both plans have been reviewed and noted. The Infrastructure List includes scope to consider infrastructure priorities identified in neighbourhood plans.
- 2.3 As Members will also be aware; the current (2024) Infrastructure List and the process undertaken during 2024 for the review of this list was also discussed by the Scrutiny Committee at a meeting held on 29th September 2025.
- 2.4 The committee noted the report, and it was agreed that the infrastructure list would be circulated to Town and Parish Council’s and members of the Scrutiny committee for their reference.

3.0 Future iterations of the Infrastructure list

- 3.1 The preparation of a new Local Plan for Mid Devon (‘Plan Mid Devon’) will provide an opportunity to undertake a fully comprehensive review of the infrastructure needed to support new development where this is planned across the district.

- 3.2 This review will be informed through technical planning work and engagement with transport, education and other infrastructure and service providers.
- 3.3 Infrastructure needs will be looked at in terms of the requirements placed through individual development sites and also the cumulative impacts of development sites at town level and wider area, to enable a strategic approach to be taken to infrastructure planning and its phasing and funding.
- 3.4 Having an up to date and current infrastructure list (the list being updated) will also be useful in undertaking the Local Plan refresh as can feed back into the plan making process and ensure all requirements are captured.

4.0 Groups Consulted

- 4.1 The Infrastructure List was reviewed by relevant officers (including those beyond the planning service), and comments sought regarding the inclusion/removal of any items. Officers considered that amendments were necessary to the Infrastructure List and these were reported to the Planning Policy Advisory Group which met on the 14th October 2025 as follows:
 - The inclusion of two infrastructure priorities identified in the Silverton and Willand Neighbourhood Plans:
 - footpath link, landscaping, ecological enhancements and public open space at the Glebe, Silverton
 - e-cargo and electric vehicle hub at Willand
 - The removal of the New Criminal Justice Centre (listed under Community Safety) from the current infrastructure list. This matter was previously raised at the Planning, Environment & Sustainability Policy Development Group (PES PDG) and Cabinet meetings in 2024. It was noted that this item has been on the infrastructure list since at least 2016, with its earliest traceable reference appearing in the Mid Devon Infrastructure Plan (December 2016). However, there is no specific mention of a criminal justice centre in the adopted Local Plan, nor any other current reference or evidence to suggest that this item remains a priority or requirement.
- 4.2 Appendix 1 includes the amended infrastructure list to exclude reference to the New Criminal Justice Centre and include the two infrastructure priorities identified in the Silverton and Willand Neighbourhood Plans. Whilst both of these infrastructure priorities are locally important through their inclusion in a neighbourhood plan they are 'desirable' in terms of their priority for achieving the delivery of the Mid Devon Local Plan.

5.0 Next steps

5.1 Subject to the Cabinet's approval of the amended infrastructure list, the infrastructure list is included in the Infrastructure Funding Statement and published on the Council's website by 31st December 2025.

Financial Implications: The Infrastructure List plays an important role in identifying when developer contributions can be used to assist in the delivery of infrastructure. It is an easily accessible document that sets out the Council's priorities for income from development and expenditure.

Legal Implications: There is a legal requirement placed through Regulation 121A of the Community Infrastructure Levy largely applicable to CIL charging authorities to publish no later than 31st December in each calendar year an annual infrastructure funding statement which comprises "a statement of the infrastructure projects or types of infrastructure which the charging authority intends will be, or may be, wholly or partly funded by CIL ("the infrastructure list")". In line with the approach taken previously, although Mid Devon District Council is not a CIL charging authority (instead having to publish an annual 'S106 report' as detailed in the Regulations), the Council may still consider it useful (as well as transparent) for it to publish a list of the infrastructure to be funded wholly or partly (albeit in its case by S106 contributions) over the forthcoming year or so.

Risk Assessment: Risk is multi-faceted, but publication of a clear IFS mitigates these by allowing transparency on the utilisation of S106 funds, allows monitoring of measures to be implemented to support planned development and also safeguards against the loss of S106 receipts through the passage of time.

Impact on Climate Change: The Infrastructure List includes provision for carbon offsetting and air quality improvements. The infrastructure list should feed back into reviews of local plans to ensure that policy requirements for developer contributions remain realistic and do not undermine the deliverability of the plan. The Local Plan has been prepared within a legal framework and national planning policy that has at its heart the principle of sustainable development and policies to help address climate change through the development and use of land.

Equalities Impact Assessment: The Infrastructure List has been informed through the work undertaken for the preparation of the Mid Devon Local Plan Review 2013 - 2033 which has been screened through an Equalities Impact Assessment.

Relationship to Corporate Plan: The Infrastructure List includes infrastructure items relating to affordable housing, transport, education, libraries, waste, health, community facilities, emergency services, where these relate to built development and Local Plan objectives. Funding the delivery of these items can also help the Council achieve its priority themes of Planning, Environment & Sustainability; Community, People & Equalities; Homes; Economy & Assets.

Section 3 – Statutory Officer sign-off/mandatory checks

Statutory Officer: Andrew Jarrett
Agreed by or on behalf of the Section 151
Date: 18.11.25

Statutory Officer: Maria De Leiburne
Agreed on behalf of the Monitoring Officer
Date: 18.11.25

Chief Officer: Stephen Walford
Agreed by or on behalf of the Chief Executive/Corporate Director
Date: 18.11.25

Performance and risk: Stephen Carr
Agreed on behalf of the Corporate Performance & Improvement Manager
Date: 18 November 2025

Cabinet member notified: Yes
