

REPORT OF THE HEAD OF PLANNING AND REGENERATION

PLANNING PERFORMANCE QUARTER 2 2015/16

RECOMMENDATION:

For information and discussion.

REASON FOR REPORT:

To provide the Committee with information on the performance of Planning Services for quarter 2 within the 2015-16 financial year.

MATTERS FOR CONSIDERATION:

Performance against targets and Planning Service staffing in the immediate future.

RELATIONSHIP TO CORPORATE PLAN:

Well Managed Council

FINANCIAL IMPLICATIONS: Planning performance has the potential for significant financial implications in the event that applications are not determined within 26 weeks or an extension of time negotiated. In that instance the planning fee is returned.

LEGAL IMPLICATIONS: The Government monitors planning performance in terms of speed and quality of decision making. In the event minimum standards are not met, an authority may be designated as being in special measures allowing applicants to apply for permission direct from the Planning Inspectorate and bypassing local decision making. The speed measure is the number of major applications determined within 13 weeks as measured over a 2 year period. The target of more than 40% has been met (58%). The quality measure is the percentage of major applications determined over a two year period that have been overturned at appeal. The less than 20% target has been met (4%).

RISK ASSESSMENT: Financial risk as a result of fee return and the designation of planning authorities in special measures for underperformance is referred to above. These aspects are actively monitored, to allow priorities to be adjusted as required to reduce the risk.

1.0 PLANNING PERFORMANCE

Set out below are the Planning Service performance figures for quarter two from 1st July – 30th September 2015 together with a comparison with the target and figures from quarter 1.

Performance data is published quarterly on the Council's website at <http://www.middevon.gov.uk/index.aspx?articleid=4026>

The performance for this first quarter is set out below and expressed as a percentage unless marked otherwise and reports against a mix of Government and local performance targets.

The enforcement service is now fully staffed.

As previously, the performance for quarter 2 of 2015/16 shows that in the majority of instances targets are being met or exceeded. However there remain some areas of concern which were also identified in the performance figures from quarter 1:

The major application target of 60% determined within 13 weeks was again missed with 50% being achieved.

Listed Building Consent application performance against the target of 80% determined in 8 weeks was 67%.

Planning Service staffing is still not at full strength due to maternity leave. This has had knock on effects in terms of associated arrangements for staff cover and redeployment of staff into different roles. Not all posts have been backfilled. Whilst work areas within conservation have been reviewed and redistributed, the capacity of that team has been affected by the need to resource giving on-going advice and guidance at The Manor House Hotel, Cullompton and to complete the review of the Article 4 Direction, Cullompton.

In the publication 'Fixing the foundations: creating a more prosperous nation' as part of the summer budget 2015, the Government has indicated its intention to tighten planning performance requirements so that local authorities making 50% or fewer decisions on time or those processing minor applications too slowly are at risk of designation. The Government's planning guarantee requires that authorities determine all planning applications within 26 weeks unless an extension of time is agreed with the applicant. If not, the planning fee is returned. Within this publication the Government has also indicated its intention to significantly tighten the planning guarantee for minor applications. Planning performance continues to be closely monitored. The performance of the planning service against targets will therefore become increasingly important, requires resourcing and presents a financial risk to the authority in the event that the planning guarantee is not met.

Every effort continues to be made to maintain our charter standards of customer service and our performance levels within the eight and thirteen week government target periods. The impact of a challenging period for staffing, particularly within Development Management continues to be reflected in some of the application time taken figures. Staffing change within this team will continue throughout the financial year as a result of maternity leave and associated cover arrangements.
